PART I
INTRODUCTION AND EXPLANATION OF CODES

INTRODUCTION

This report presents a variety of subcontract data collected from Department of Defense (DOD) large business firms that have received at least one award in excess of \$500,000 (\$1,000,000 for construction). Public Law 95-507 requires that these contractors establish a small business and small disadvantaged business subcontracting program and report to DOD quarterly, using Standard Form 295, on subcontract awards made to these types of firms.

Those contractors who deal in commercial products are required to report on an annual basis during the fourth quarter of the Fiscal year (FY). Commercial products are defined as products sold in substantial quantities to the general public and/or industry at established catalog or market prices.

Table II-1 shows the dollar amounts and percent distribution of awards from DOD contractors to large, small, and small disadvantaged businesses for FY 1982 and FY 1983. Table II-2 summarizes DOD subcontracting program commitments for FY 1983. Tables II-3 and II-4 summarize small and small disadvantaged business subcontracting goals and achievements. Commercial product information for these same categories is shown in Tables II-5, II-6, and II-7.

Detailed information from the Army, Navy, Air Force, and Defense Logistics Agency (DLA), excluding commercial products, is presented in Part III, Sections 1 through 4. Commercial product information is presented in Part III, Section 5. These listings include all of the statistics submitted by each contractor and subcontractor on SF-295.
